MEMORANDUM FOR:	Associate Deputy Director for Operations for Counterintelligence			
VIA:	Deputy Director for Administration			
FROM:	John M. Ray Director of Logistics			
SUBJECT:	Space Renovation and Consolidation for the Counterintelligence Center			
REFERENCE:	Memo for D/L fm ADDO/CI, dtd 28 October 88, Same Subject			
1. I believe we at last have in hand a workable long-term solution for consolidating the Counterintelligence Center (CIC) on the Headquarters Compound. We propose that you be located on the third floor of the Original Headquarters Building (OHB)  Several other Directorate of Operations elements  -we have already discussed the approach with the Special Assistant to the Deputy Director for Operations (DDO), who in turn has cleared it with the DDO.  2. You will recall that our original plans to house the CIC in consolidated quarters by April 1991 went up in smoke when the Center expanded from employees. We can now move you into enlarged permanent quarters in two phases, the first in early 1992 and the second in late 1992. The space cannot be readied before that time because of the sequence of moves upon which its availability depends. We have had to extend the backfill renovation program by as much as six months to one year to accomplish this much for you.				
3. This le	eaves us, of course, with your near-term need of space for ecommend that this group be placed in a second set of			
temporary quarte quarters are rea	ers in the New Headquarters Building until your permanent OHB ady. It will mean that the CIC will be split into three parts at least all three will be on the compound.

4. In sum, if you agree with what we have proposed above, we will set the wheels in motion. Also, be assured that we will take advantage of any opportunity which might arise to get you settled in permanent quarters sooner. Please advise.

John M. Ray
